Int. J. Pres. Ves. & Piping **40** (1989) 405–407

CONTENTS OF VOLUME 40

Number 1

Large-Displacement/Rotation and Large-Strain Elasto-Plastic Finite Element Analysis of General Shell Structures 1
YIN JIAJU (People's Republic of China) &
ALAIN COMBESCURE (France)

Use of Neuber's Rule to Estimate the Fatigue Life of Notched Specimens of ASME SA 106-B Steel Piping in 288°C Air 17
J. B. TERRELL (USA)

The Analysis of Mode I In-Plane Toughness Data for Mild Steel Plate and Weld Metal. Part I—Analytic Methodology 41
P. L. WINDLE & R. MOSKOVIC (UK)

A Study on the Fatigue Strength Behavior of Reinforced Concrete Structures . 51
DONG-IL CHANG & WON-KYU CHAI (Korea)

Stable Crack Growth of Axial Surface Flaws in Pressure Vessels 77
W. BROCKS, G. KÜNECKE & K. WOBST (Germany)

Number 2

Elastic Plastic Finite Element Calculations of a Cracked Piping System and Leak-Rate Evaluations. 91
H. GREBNER, A. HÖFLER & O. HABER (FRG)

The Analysis of Mode I In-Plane Toughness Data for Mild Steel Plate and Weld Metal. Part II—The Data and the Analysis. 107
P. L. WINDLE & R. MOSKOVIC (UK)

Influence of Environmental Variables and Intermittent Overloadings on Fatigue Crack Growth in On-Board NGV Cylinder Steel 139
G. S. BHUYAN & W. J. BREZDEN (Canada)

The Instability Criterion for a Circumferential Through-Wall Crack in a Bend in a Stainless Steel Piping System: The Effects of Bend Profile and Bend Angle. . 151
E. SMITH (UK)

Computer Aided Design of Pressure Vessels 161
ÖMER. G. BILIR & M. KÜRŞAT ÖZGEN (Turkey)

Book Notice 173

Int. J. Pres. Ves. & Piping (40) (1989)—© 1989 Elsevier Science Publishers Ltd, England.
Printed in Great Britain

Number 3

Mechanical Analysis of a Simply Supported Annular Plate Loaded by a Periphery Force 175
E. DRAGONI & A. STROZZI (Italy)

Breakdown and Repair of Large Spherical Containers for Liquefied Hydrocarbon Gases 193
IVAN HRIVŇÁK (Czechoslovakia)

Failure of Cracked Engineering Structures: Fracture Mechanics or Flow Stress Controlled? 223
E. SMITH (UK)

Framatome Operating Transients Monitoring System Used for Equipment Mechanical Surveillance 247
J. HELIOT & R. FRITZ (France)

Number 4

Fracture Mechanics Characterization of a 1:5 Scale PWR Vessel Model . . 259
A. CELLA, A. MACCHI & C. SAMPIETRI (Italy)

Prediction and Specification of Crack Arrest Properties of Steel Plate . . 279
G. P. SMEDLEY (UK)

Probability of Void Coalescence in Spheroidized Pressure Vessel Steel . . 303
BOHUMÍR STRNADEL, EVA MAZANCOVÁ, STANISLAV HAVEL & KAREL MAZANEC (Czechoslovakia)

Stress Intensity Factors for Complete Internal and External Cracks in Spherical Shells 315
YUH-JIN CHAO & HAI CHEN (USA)

Announcements 327

Number 5

Special Issue

INTERNATIONAL COOPERATIVE GROUP ON CYCLIC CRACK GROWTH (ICCGR)
TENTH ANNIVERSARY REPORT

1 Introduction 331
B. TOMKINS (UK)

2 Data Acquisition 335
P. M. SCOTT (UK)

3 Mechanisms of Environmentally-Assisted Cracking 343
F. P. FORD (USA)

4 Applications 363
JOE D. GILMAN (USA)

5 Round Robin/Collaborative Programme 375
R. L. JONES (USA), P. HURST & P. M. SCOTT (UK)

6 A Summary of Group Benefits, Accomplishments and Expenses 397
W. H. BAMFORD (USA)

Appendix: Charter of the International Cooperative Group on Cyclic Crack Growth Rate 401
